Choose suitable search terms to find relevant content on the web

Identify features that help visually communicate the message

Plan a digital artefact to include features identified as good

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Use digital tools to provide feedback on a document

Modify content to suit the purpose of a different digital artefact

Explain the need for the consistent styling within a multi-page digital artefact

Create a multi-page digital artefact applying consistent styling

Plan a multi-page digital artefact with consistent styling

Express the needs of the intended audience

Describe how media can be copied between applications

Explain the need for the consistent styling within a multi-page digital artefact

Modify content to suit the purpose of a different digital artefact

Create a multi-page digital artefact applying consistent styling

Plan a multi-page digital artefact with consistent styling

Express the needs of the intended audience

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Choose suitable search terms to find relevant content on the web

Identify features that help visually communicate the message

Plan a digital artefact to include features identified as good

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Use digital tools to provide feedback on a document

Modify content to suit the purpose of a different digital artefact

Explain the need for the consistent styling within a multi-page digital artefact

Create a multi-page digital artefact applying consistent styling

Plan a multi-page digital artefact with consistent styling

Express the needs of the intended audience

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Choose suitable search terms to find relevant content on the web

Identify features that help visually communicate the message

Plan a digital artefact to include features identified as good

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Use digital tools to provide feedback on a document

Modify content to suit the purpose of a different digital artefact

Explain the need for the consistent styling within a multi-page digital artefact

Create a multi-page digital artefact applying consistent styling

Plan a multi-page digital artefact with consistent styling

Express the needs of the intended audience

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Choose suitable search terms to find relevant content on the web

Identify features that help visually communicate the message

Plan a digital artefact to include features identified as good

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Use digital tools to provide feedback on a document

Modify content to suit the purpose of a different digital artefact

Explain the need for the consistent styling within a multi-page digital artefact

Create a multi-page digital artefact applying consistent styling

Plan a multi-page digital artefact with consistent styling

Express the needs of the intended audience

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Choose suitable search terms to find relevant content on the web

Identify features that help visually communicate the message

Plan a digital artefact to include features identified as good

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Use digital tools to provide feedback on a document

Modify content to suit the purpose of a different digital artefact

Explain the need for the consistent styling within a multi-page digital artefact

Create a multi-page digital artefact applying consistent styling

Plan a multi-page digital artefact with consistent styling

Express the needs of the intended audience

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Choose suitable search terms to find relevant content on the web

Identify features that help visually communicate the message

Plan a digital artefact to include features identified as good

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Use digital tools to provide feedback on a document

Modify content to suit the purpose of a different digital artefact

Explain the need for the consistent styling within a multi-page digital artefact

Create a multi-page digital artefact applying consistent styling

Plan a multi-page digital artefact with consistent styling

Express the needs of the intended audience

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Choose suitable search terms to find relevant content on the web

Identify features that help visually communicate the message

Plan a digital artefact to include features identified as good

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Use digital tools to provide feedback on a document

Modify content to suit the purpose of a different digital artefact

Explain the need for the consistent styling within a multi-page digital artefact

Create a multi-page digital artefact applying consistent styling

Plan a multi-page digital artefact with consistent styling

Express the needs of the intended audience

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Choose suitable search terms to find relevant content on the web

Identify features that help visually communicate the message

Plan a digital artefact to include features identified as good

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Use digital tools to provide feedback on a document

Modify content to suit the purpose of a different digital artefact

Explain the need for the consistent styling within a multi-page digital artefact

Create a multi-page digital artefact applying consistent styling

Plan a multi-page digital artefact with consistent styling

Express the needs of the intended audience

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Choose suitable search terms to find relevant content on the web

Identify features that help visually communicate the message

Plan a digital artefact to include features identified as good

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Use digital tools to provide feedback on a document

Modify content to suit the purpose of a different digital artefact

Explain the need for the consistent styling within a multi-page digital artefact

Create a multi-page digital artefact applying consistent styling

Plan a multi-page digital artefact with consistent styling

Express the needs of the intended audience

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Choose suitable search terms to find relevant content on the web

Identify features that help visually communicate the message

Plan a digital artefact to include features identified as good

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Use digital tools to provide feedback on a document

Modify content to suit the purpose of a different digital artefact

Explain the need for the consistent styling within a multi-page digital artefact

Create a multi-page digital artefact applying consistent styling

Plan a multi-page digital artefact with consistent styling

Express the needs of the intended audience

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Choose suitable search terms to find relevant content on the web

Identify features that help visually communicate the message

Plan a digital artefact to include features identified as good

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications

Use digital tools to provide feedback on a document

Modify content to suit the purpose of a different digital artefact

Explain the need for the consistent styling within a multi-page digital artefact

Create a multi-page digital artefact applying consistent styling

Plan a multi-page digital artefact with consistent styling

Express the needs of the intended audience

Describe how design choices address the task

Use a combination of applications to create a digital artefact

Recognise that content should be modified to suit different digital artefacts

Recognise that existing digital artefacts can be modified

Describe how media can be copied between applications
